PROJECT STATUS REPORT

Project Name	Regina SDGs
For Week Ending	March 15th, 2024
Project Status	Yellowish - Green
Status Description	• Need to figure out a search system. • Download and shareable mechanism. • Figure out menu

Activities—During the Past Week

- Home Page
  - Added function Interactive Circle
- All SDGs Page
  - Add tiles for all SDGs.
- About Us Page
  - Brief info on parties involved.
- Subcategory Page
  - Added 2
  - Added graphs + infographics

Activities—Planned for Next Week

- Add Dropdown in Menu OR Side Bar
- Figure out Search Option
- Figure out Shareable and Download Option
- Refine Pages more

Project Issues

- Shareable and Download Options are locked (need to purchase)
- Consistent Footer Alignment

Project Changes

- N/A

To Do/Done

Green = Done

Dark Yellow = Almost Finished

- (.docx) Project status report (Uploaded to GitHub)
- Provide a demo of work-in-progress
- Discuss how you address ideas and concepts discussed in the lectures in your project conceptualization and work.
- Updated user story map (USM), if required (regardless, ensure to do a PDF export from StoriesOnBoard) with envisioned MVPs as a snapshot of changes/no changes)
- Summarized customer notes from customer check-ins (2-page maximum)
- Self/peer review files (uploaded to URCourses only)
- Good (Readable)-Excellent grammar, spelling, professionalism
- All files uploaded to GitHub

QUESTIONS

1. What are exactly the 6 SDGs we want to focus on? (SHAHZIL, wheel)
2. Will we get the data for those too (eventually)? (ALVIN)

PRESENTATION

- INTRO (all)

- Header (Shahzil) - (2 mins)
- Home Page (Shahzil)

- SubCatrgory (2 mins)
    - Industrial (Alvin)
    - Housing (Quing)

- All SDGs (1 min, Ansar)
- About Us (1 min, Linton)

- Questions (remaining)

Discuss how you address ideas and concepts discussed in the lectures in your project conceptualization and work.

Skeuomorphism
 - Interactive circle represents the iconic SDG pin wheel for easier navigation. It invites users to interact with the icons on the circle.

Affordances
- Items intended to be clicked will highlighted to afford responsiveness.
- The tiles in the "All SDG" pages flip when user hovers over them which affords user's intuition that said tiles are interactive.

Constraints
- Pin wheel constraints the users to only navigate within parameters
- Limited features available without paying for pro version

Gestalt
- We decided to group the 17 SDG tiles in the "All SDGs" page as they are best represented together collectively.
- Instead of having multiple pages for sub-categories, we combined them into a table
